

Eagle Plains Resources Ltd.

THEORY PROJECT
COPPER & GOLD

Projection - NAD 1983 UTM Zone 09N
Nominal Scale - 1 : 225 000
Date - May 2024

FRED 1 Showing
grab samples up to
6.80 g/t Au & 1101
g/t Ag in area of
propylitic alteration

**DR Showing - Cu in grabs up to
17.1% in narrow veins with bornite
coincident with magnetic anomaly**

**FRED 4 Showing - grab samples up to 10.26 g/t Au in
quartz-carbonate veins accompanied by argillic alteration.**

**Potassium
alteration with anomalous Au
in rock chips**

copper skarn occurrences

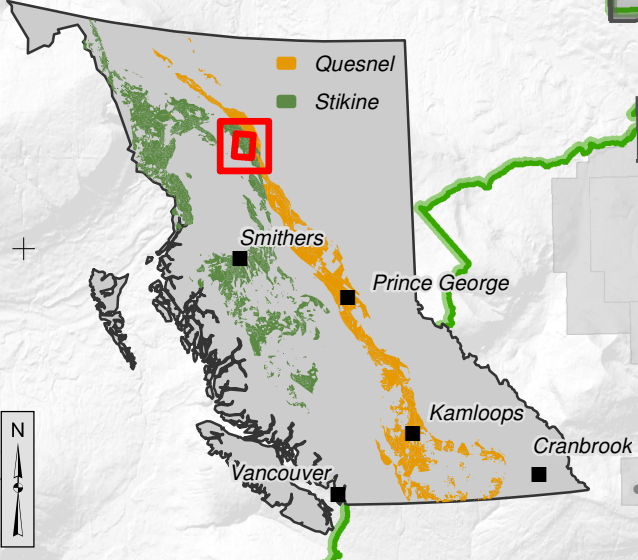

**BEV Showing - Gossanous zone with dyke
material containing disseminated and
fracture-filling pyrite and chalcopyrite**

**B Zone - grab
samples up to
8.89 g/t gold in
quartz-barite vein**

THEORY - 9156 Ha

Anomalous Cu & Au in Silt

**Thesis Gold Lawyers-Ranch Project:
4,705,000 AuEq ounces reported in
2024 updated Mineral Resource
Estimate (May 1, 2024 NR)**
